

Pre-Leveled Frame & Foam Base with Acrylic Skirting

See pricing on the next page

Acrylic Skirts add a finished appearance to MTI's "Pre-Leveled Frame and Foam Base" system*. They are available in 3 basic designs:

- Raised Panel reflects a more traditional design.
- Euro-Style integrates well with settings that are transitional or contemporary.
- Flat Panel Contemporary offers clean, seamless design.
- Pre-leveled foam base negates the need to wet bed when tub is installed on a flat, level subfloor.

NOTE: Please indicate drain location in relation to tub skirting when ordering. Optional factory installed skirting system will add 2"–3" to overall height of tub due to included pre-leveled foam base.

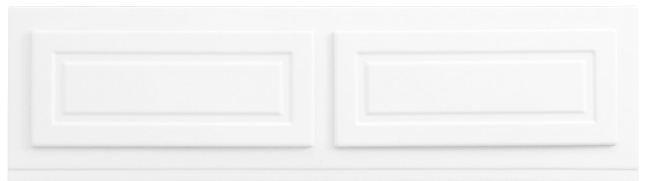

Traditional with Raised Panels / 2 Removable Panels

- For use with tubs equipped with whirlpool or air bath to provide access to pump or blower.
- Left and right panels are removable.

Traditional with Raised Panels / One-Piece

- For use with soaking tubs.
- Panels are fixed and provide no access.

Contemporary Euro-Style / 2 Removable Panels

- For use with soakers and with tubs equipped with whirlpool or air bath to provide access to pump or blower.
- Left and right panels are removable.

Contemporary Flat Panel / One-Piece

- For use with soaking tubs.
- Panel is fixed, non-removable, and provides no access.

Euro-Style / Unique Design for Corner Tubs

- Specially designed for corner units, the skirt can be used when specified as a soaker, whirlpool or air bath.
- Left, center and right panels are removable for pump or blower access.

Pre-Leveled Frame & Foam Base with Acrylic Skirting Pricing

Pre-leveled Frame and Foam Base with Acrylic Skirting Pricing

- Skirt systems are factory installed and must be ordered with tub for proper fit and finish.
- Pricing listed is for White and Biscuit.
- Skirt systems available for most Designer Collection rectangular and corner tubs. See individual tub specification sheets for availability.
- Skirting listed below is NOT sold separately.
