

Stereo H₂O® Audiotherapy

High-performance acoustic transducers effectively transform the bath shell into a sounding board, surrounding the bather with invigorating or relaxing sounds of choice. Stereo H₂O lets the bather feel the music as it travels through the bath water.

- Stereo H₂O transducers can be integrated with a zoned home audio system (not included).
- Provided speaker leads connect to the zoned audio amplifier (see diagram on next page).
- Stereo H₂O is a system capable of providing output from a compatible audio device.

Package	Package Contents	Part #	Price
Stereo H₂O®	4 transducers. Pre-wired leads compatible with stereo receiver/amplifier of choice, or a product such as those available from Sonos, Inc.	(STEREOH202)	\$1,655
Stereo H₂O® with Bluetooth	2 transducers. Installed with ready-to-use Bluetooth amplifier and on/off button. Waterproof remote control sold separately.	(STEREOBT)	\$1,460

Accessories
Bluetooth Remote Compatible with Bluetooth System (STEREOBT) only Waterproof, floating remote control. (BTREMOTE) \$630

Stereo H₂O offers flexibility of installation. The electronic transducers can be wired to any quality receiver/ amplifier or integrated in a zoned home audio system.

Above are 2 examples of how Stereo H₂O can be connected.

NOTE: Actual location and number of transducers will vary based on H₂O package, tub shape, hydrotherapy components and other options.
